- # At weaning GlanEry 7-in-1 B12 booster vaccination and drenched with Startect
- # 28/2/24 drenched with Duocare

Introduction

Three Hills Australian Whites have been sourcing some of Australia's top genetics since 2012. From the beginning we have only bought ewes and rams from Tattykeel Stud at Oberon.

We aim to breed hardy, well structured sheep that require minimal maintenance that can adapt to all environments.

When we select stud sires, we look for volume on a moderate frame. They must stand well and ideally have good black points.

Recent Stud Sires

Tattykeel 16-0512: A son of the influential "Leader" this ram added increased thickness.

Tattykeel 18-0899: Shown successfully and used at Tattykeel, this ram was the third top priced ram purchased at their 2019 sale. His progeny has a beautiful hair pattern.

Tattykeel 20-1676 "Powerball": Purchased in 2021 at the record breaking Tattykeel sale, this son of "Remington" has 14 rams for sale today. We are very excited with what he is producing. His lambs, on the whole, are very clean shedding with good black points. They show a good balance of length and thickness.

Tattykeel 21-1032 "Digger": Purchased in 2022 in partnership with Doug Tozer of Onslow Stud at the September Tattykeel sale, "Digger" is a son of \$150,000 "Anzac. He has 8 quality sons in the sale.

Three Hills 20-0060: A son of Tattykeel 18-0899 that has done a great job putting added volume on a clean shedding frame. 7 sons are in the sale.

Three Hills 21-0005: A Leader line ram through 16-0512. He is big, long and stands very well. 10 sons are in the sale.

Three Hills 22-0059: A grandson of 18-0899 with a great back end. He is super white and sheds beautifully. 7 sons are in the sale.
